Vol. 1

No. 8.

OBITER DICTA

This year there are 850 pupils at the College, 374 girls and 476 boys. Of this total 138 are in the Sixth Forms.

The Head Boy this year is Dennis Herrell and the Head Girl Heather Roy. The other prefects are Elizabeth Betts, Bella Benton, Ann Cousins, Alison Davey, Jennifer Griffin, Frances Harwood, Lesley Kirby, Diana Leggett, Linda Taylor, Jacqueline Warren, Anne Whitman, Anna Whyte, Margaret Wilson, Carole Wyer, John Amis, Robert Clare, Stuart Davey, Timothy Doe, Anthony Ellis, Leonard Gosling, Gerald Gunton, Geoffrey Hardaker, Geoffrey Holmes, Terence Lake, David Lockwood, Frank Marsh, Derek Morgan, Adrian Smith, Raymond Smith, Robin Smith, Barry Williamson and Alan Woods.

On the results of the General Certificate of Education (Advanced Level) Examination, 1960, a State Scholarship was awarded to Ian Logan, and Norfolk County Major Scholarships were awarded to Ann Cousins, Heather Roy, Michal Utting, Anna Whyte, Margaret Wilson, David Bligh, Maurice Freeston, Peter Guildford, Dennis Herrell, Derek Hubbard, Alfred Malt, Terence Murphy, David Pipes, Anthony Watson, Thomas Young.

Heiko Cooper and David Willmott whose parents live outside the Administrative County of Norfolk, attained the standard required for the award of a Norfolk County Major Scholarship.

We offer our congratulations to:—

Mr. and Mrs. Bramwell on the birth of a son,
 Mr. and Mrs. Hawkyard on the birth of a son,
 Mr. and Mrs. Freeman on the birth of a daughter,
 Mr. and Mrs. Hobday on the birth of a son,
 Mr. and Mrs. Norton on the birth of a son,
 Mr. and Mrs. Rutherford on the birth of a son,
 Mr. and Mrs. Seeley on the birth of a son.

During the year we said goodbye to Mrs. Bailey, Miss G. Harvey, Mrs. Norton and Mr. Terry. In July the following members of staff will be leaving: Mrs. Chamberlain, Miss J. Harvey, Miss Law, Miss Thornett, Mr. Davies and Mr. Hobday. We thank them for their service to the College and wish them all good fortune for the future.

Dennis Herrell is congratulated on gaining an Open Scholarship in Physics at the Imperial College of Science.

We are very grateful to Mr. Chamberlain for his services to the community until the arrival of the Rev. H. McClure.

On behalf of the College the Warden wishes to thank our editor, Mr. Hobday, who is leaving us this term, for very successful productions of the College Magazine over the last five years.

CHAPEL NOTES

The worship in the School Chapel has been carried on through the goodwill and co-operation of a great many people. The Staff have contributed by supplying readers of the service, and many people from outside our community have given addresses. To both groups deep gratitude is offered. Those who have given addresses include: The Lord Bishop of Thetford; The Reverends M. O. Vann; J. Buck; I. Webb; J. Burgess; D. Gosden; Canon Edwards; T. S. Harwood; H. Barton; J. G. Tansley-Thomas; J. F. Lord; Messrs. A. C. W. Chamberlain; Whitaker; Ald. S. Peel; and Dr. and Mrs. Lincoln Ralphs. The prefects have been faithful in reading the lessons. Singing is a very important aspect of congregational worship and our best thanks go to Mr. Paul Wrench and the choirs for the time and effort expended in reaching such a high standard. A special word of thanks is due to Mr. A. C. W. Chamberlain upon whom fell the main burden of the duty till the advent of Rev. H. N. McClure. His interest and concern, as well as his cheerful discharge of extra duties, deserve sincere praise and gratitude.

During the term about 60 boys and girls were prepared for Confirmation. The service took place in Wymondham Abbey on July 9th. The Bishop of the Diocese, Dr. Fleming, conducted the service.

Our best thanks are due to the Vicar of Morley for his co-operation in catering for the needs of confirmed Anglicans.

At the moment two communion services are held each Sunday at which pupils from the College attend. It is a pleasant thought to know that Mr. Burgess has promised to help in any way in the future which will advance the spiritual lives of the children and thereby the life of the school.

The various non-Anglicans groups in the College have had the benefit of regular instruction from their several ministers. We are deeply indebted to the Rev. M. O. Vann and Father Cowin for their devotion and interest.

We give thanks to God for past mercies and we pray His blessing on our future work and worship.

COLLEGE LIBRARY

This school year has seen a further growth in the use of the Library which now possesses well over 6,000 books, and has available, up-to-date, copies of some two dozen periodicals.

7,362 volumes have been borrowed by pupils, from the beginning of the Autumn Term to the end of May 1961, and of these 3,371 have been

issued to sixth formers. In fact, the reading capacity of some of the latter is quite staggering, one boy's consumption being 102, and two others' over 80.

This term, too, we have acquired a 12-volume set of the Oxford English Dictionary, and two new multi-volume encyclopaedias will be in use soon. With the hundreds of other reference books to consult, it can truly be said that an answer to any question can be found here.

Naturally, the most popular books are receiving a lot of wear and tear and despite the efforts of a number of sixth formers with polythene and cellotape, they may soon have to be withdrawn and replaced. Care in the handling of books is essential by all.

Increased circulation of books, especially among sixth formers, causes increased administrative work, and this year twelve girls have been needed to cope with the rush. Their voluntary services are much appreciated.

HOUSE REPORTS

NORTH HOUSE

This year North House has not excelled itself on the games field, although the senior rounders team won by a narrow majority, and the under-thirteen and seven-a-side Rugby teams were also successful. After a very close contest North was finally placed second to South at the end of the athletics season.

We take this rather belated opportunity to welcome Mr. Davitte to the house and to regret the loss of Miss Button who stayed with us for a term only. We were sorry to lose Mr. Thornley to East House at the end of the Spring Term. To Mrs. Hawkyard we offer our congratulations on the birth of a second son, William.

This year the House enjoyed a Christmas party, and the prefects have met for coffee on Sunday evenings a number of times. This has helped to create a closer relationship between the boys' and girls' houses.

ANN COUSINS, DENNIS HERRELL

SOUTH HOUSE

At the end of last year we said goodbye to Miss Nixon, Miss Coulton, Mr. James and Mr. Bonsell, and welcomed in their place Miss Wigham, Miss Buckeridge, Mr. Quest and Mr. Long.

The girls had a reasonably successful winter season on the games field, winning both the Senior and Intermediate Netball matches, and only just failing to win the Hockey finals after very close matches. For the boys it was one of the most successful seasons ever. Winning the Senior Rugby

after a very close game, and winning the Senior and Intermediate cross-country races.

At Christmas the girls held a "Black and White" social evening, inviting the boys and members of staff to Peel Hall for a supper and dance. This year also saw the beginning of Sunday social evenings, when members of the sixth forms met and discussed various topics.

In Athletics, after a very close match, and the re-running of several races, we emerged the winners over North House, and we wish to take this opportunity to thank them for taking the decision so well.

At the end of this term we are losing Miss J. Harvey, who became our House Mistress only two years ago. We would like to say thank you for all the invaluable help and advice she has given us during her stay, and wish her every success in her new post at the College of Further Education in Grantham.

In conclusion to this year's report, we would like to thank all the members of staff for making this year such a pleasant and enjoyable one, and we wish our successors and all members of South House all the very best of luck in the future.

LINDA J. TAYLOR, STUART J. DAVEY

EAST HOUSE

In September we welcomed Mr. Thompson to the house and at the end of the Spring term Mr. Thornley became housemaster in Mr. Terry's place. During the year Miss Harvey, Mrs. Bailey and Mrs. Norton left. In July Miss Law, Mrs. Chamberlain and Mr. Davies are leaving. We should like to thank them for all they have done for the house, and we wish them every success in the future.

Our congratulations go to Mr. and Mrs. Norton on the birth of a son in January.

Our second combined house party took place in October. We chose as our theme Guy Fawkes, and the party was a great success, owing mainly to the inventiveness and unexpected talent of a number of sixth form boys.

The boys again challenged the girls to a hockey match in the Autumn term. The boys won but only after a very close game which was enjoyed by players and spectators.

In March the girls and boys joined together to make a presentation to Mr. Terry. On this occasion, as well as saying goodbye to Mr. and Mrs. Terry, we welcomed Mr. Thornley as housemaster.

During the Spring Term a group of enthusiastic juniors met to discuss the starting of a house dramatic society. The society is flourishing under the guidance of Mr. Thompson.

This has not been a good year for sport. Of the three netball teams only the 13-15 team reached the finals of the inter-house competition, and they were beaten by West. The first hockey team were more successful. They beat South in the final after a very close game.

In the cross-country run the boys' senior team finished fourth. The Under Sixteen and Junior teams did better, finishing second and third respectively.

In the seven-a-side rugby competition the Under Fifteen team were successful in their game against South in the final. The teams in the fifteen-a-side competition were less successful. All three teams reached the finals but were beaten by their opponents. The senior team lost to South, after first drawing.

We did not retain the cup for the best performance in the inter-house athletics competition. Our failure was not due to lack of enthusiasm and there were several outstanding individual performances. Our thanks must go to the athletics captains for their hard work and encouragement throughout the season.

This year has seen a stronger house spirit and we hope this will continue and lead to a more successful sports record next year. Finally, we would like to wish next year's house captains good fortune in their year of office.

JENNIFER GRIFFIN, TERRENCE LAKE

WEST HOUSE

We welcomed to the house at the beginning of this year Miss Wheaton, Mr. Bennett, Mr. Williams, Mr. Laughton and Mr. Naylor. At Christmas Mrs. Chamberlain, who had been with us for a term, left us to join East House. After Christmas we welcomed Mr. McConkey to the house.

At the close of the Autumn Term the Senior Boys entertained the Senior Girls to a social evening in Tomlinson Hall and during the Spring term the juniors had a house party.

Although the seniors were unsuccessful on the hockey field, the juniors helped to rectify this with a notable victory over South.

The netball results were very commendable as all three teams reached the finals and the Under Fifteen team emerged victorious.

In rugby, although handicapped by the lack of numbers, the senior team was only narrowly beaten by South in the semi-finals. Both junior teams were unsuccessful this year.

In the cross-country competition, the individual winners of the senior and intermediate races were members of West House, but the teams as a whole were unlucky. We would, however, like to offer our congratulations to the junior team on their very fine win.

In athletics the house did very well in standards. On Sports Day our efforts did not prove quite so successful but we would like to congratulate the house on their excellent team spirit throughout the season.

This term we say goodbye to Mr. Hobday who has been with the house for four years and we wish him every success in his new post.

HEATHER ROY, ADRIAN SMITH

SPORT

1st XI

HOCKEY, 1960-61

Matches Played	Lost	Drawn	Won
10	2	0	8

The 1st XI had a successful season in the matches they played but unfortunately a number had to be cancelled in October owing to almost a month of very bad weather conditions. This lack of match practice at a vital stage in the season took its toll and the whole team found it difficult to combine and produce united gamesmanship.

The standard of individual play has improved considerably throughout the season, but once again the aim must be to form a team which will play as a whole and not as eleven individuals.

Speed, stamina and spirit appeared to be the mark of the 1st XI this season, and this attitude has produced some pleasing results in that the team's play rarely lacked vigour and enthusiasm. Now a more highly developed, skilful and tactical game must be the aim.

2nd XI

Matches Played	Lost	Drawn	Won
4	0	1	3

The 2nd XI had a consistent season. Although this team did not appear to be as forceful as the 1st XI their results were good and they proved themselves to be a "winning" side. Regardless of the fact that once again the 1st XI borrowed 2nd XI players on a number of occasions, the latter team played together well.

Junior Team

Matches Played	Lost	Drawn	Won
6	3	0	3

The Under 15 and Under 14 XI's had only six matches between them and although they are potentially very promising young teams, lack of match experience was obviously the reason why their success in matches was not always consistent.

ROUNDERS, 1960

This season we have had only two teams, an Under 15 IX and Under 14 IX, so allowing the seniors to concentrate on tennis. These two junior teams have shown much improvement throughout the season, particularly the Under 14 IX. They began by losing two games, but only by close margins, then went on to win the last four matches. As they acquired match experience, they gained confidence and produced on numerous occasions some good, quick fielding during the latter half of the term.

On two occasions we did provide teams of other ages--namely a First and Under 16 IX's against Downham Market who won 4-0 and 3-0 respectively, and an Over 15 IX against Northgate Grammar School which won 12-9 in an extremely good match.

NETBALL**1st and 2nd VII**

The standard of both the senior teams was very high indeed, but unfortunately this high standard did not always appear during matches and so the 1st VII suffered two losses which, according to their practice standard, should have been victories. The 2nd VII on the other hand managed to maintain both their speed and skill during practices and matches and consequently won all their matches.

1st VII

Matches Played	Lost	Drawn	Won
4	2	0	2

2nd VII

Matches Played	Lost	Drawn	Won
3	0	0	3

Under 15, Under 14 and Under 13 VII's

The junior teams played only six matches in all, the Under 15 VII having the majority of these and playing, on the whole, a fast if not always a well controlled game. More match experience would prove valuable to these junior teams.

Matches Played	Lost	Drawn	Won
6	2	1	3

1st VI

Matches Played--9

TENNIS, 1960

Matches Won--7

Matches Lost--2

TEAM

1st Couple: P. Morris (Captain); D. Gosling.

2nd Couple: M. Utting, P. Culling;

3rd Couple: J. Warren, J. Jongman.

The tennis season began well with the 1st VI winning the first three matches. On entering the Marriott Cup we passed into the semi-final by beating East Dereham 6-3, but then lost by a narrow margin to Norwich High School.

The middle of the season was a little disappointing with the team losing two of their matches, but confidence was regained by the end of term and the standard of play was much higher.

General attacking play, net rushing and volleying improved considerably throughout the season.

2nd VI

Matches Played—6

Matches Won—5

Matches Lost—1

The 2nd VI had a very successful season, losing only one match. The Under 15 VI also showed great promise in winning the Young's Cup, by beating Notre Dame in the final.

Lack of courts is still unfortunately a great handicap as it reduces the number of eligible team players to the barest minimum, and also means that they have to monopolise the courts when non-team people could be improving their game.

ATHLETICS

Summer Term, 1960

This was another successful summer season for College athletes. After the round of Schools' Meetings at Wymondham, Hunstanton and King's Lynn, the following were selected to represent Norfolk in the English Schools' Championships at Shrewsbury: Diana Gosling, Pamela Culling, Williamson, Smith A., Smith R. and Lawrence. All performed with credit to help Norfolk retain the Minor Counties trophy, but pride of place must go to Williamson on his winning the Senior Boys' Low Hurdles event, whilst Diana Gosling threw the Javelin to be placed second in the Senior Girls' event.

The College was successful also at the Diss and North Walsham Inter-Club Meetings. The former was held during our half-term, but the large number who made the effort to compete was most commendable. Smith A.'s triple jump of 43 ft. 5½ ins. was outstanding. After her performances in the Discus and the Javelin, Diana Gosling was selected to represent Norfolk W.A.A.A., against Hertfordshire and Essex, at Harlow. Later, a number of boys competed in the Junior Championships and afterwards Williamson, Smith R., Eley and Smith A. were selected to represent Norfolk in the Hibberd Cup Triangular Meeting at Bury St. Edmunds.

Spring Term, 1961

The unseasonable weather we enjoyed for the Inter-House Athletics was most welcome and no doubt helped to contribute towards making our athletics standards appear easy. This year the 1500 metre steeplechase was introduced; and by the end of the competition 23 new best performances had been created.

The team for the L.A.C. Meeting at the White City consisted of Lawrence, Boast, Dew and Beardsley. This event, as always, was of great instructional value.

1st XI**CRICKET**

Matches played in 1960:

Played	Won	Lost	Drawn	Abandoned
15	7	2	4	2

The College enjoyed a most successful season in 1960, losing only two of the fifteen matches played. It was a pity, however, that the weather deteriorated in the latter few weeks of the season, because, earlier matches had been on good, fast, dry wickets. The batting was usually adequate, with Baker providing the backbone of most innings. But bowlers also help to win matches and it was to Young and Malt that the team owed most of its success. In all they bowled 334 overs out of a total of 478, and took 79 wickets between them. Very few schools had a better pair of opening bowlers than these two. Smith, the wicket keeper, was very sound and always full of enthusiasm. Attoe, who never had a chance to bowl when the ball was new and the wicket helped the bowlers, showed great promise for the following season.

In 1961 it was felt that the batting would be adequate, with the bowling lacking in variety and penetration. In the first few matches this has not proved so, and only against Norwich School and Culford did the batting look sound. However, it is hoped that the main batsmen will soon establish themselves again and will enjoy a long innings which is such a help in restoring confidence.

For the second successive season our grateful thanks go to Mr. S. Montgomery, formerly with Glamorgan and Essex, who has given up so much of his time in coaching the school teams. Mr. Seeley, too, has our thanks for his work on our behalf.

BATTING AVERAGES 1960 SEASON

			Number of			
			runs	Innings	Not out	Average
Baker	312	13	3	31.2
Young	227	13	1	18.9
Gaze	88	8	3	17.6
Willmott	222	13	0	17.0
Attoe	32	5	11	16.0

BOWLING AVERAGES 1960 SEASON

	Overs	Maidens	Runs	Wickets	Average
Young	180.1	62	318	44	7.2
Galloway	67	22	123	14	8.7
Malt	154.3	30	385	35	11.0
Attoe	50	18	85	5	17.0
Dexter	27	4	106	6	17.6

A.G.S.

Under 15 XI

This was possibly our best Under 15 season to date. With the bat we were well served at various times by Jolly, Hegarty, Jackson, Goodwin, Cullingham, Shreeve and Dexter. Our opening bowlers were Goodwin and Bobbin, and they were assisted by Shreeve, who captained the side, and Dexter, Corless B. kept wicket with style and agility. The following also played for the XI. Syrett, Horne, Cannin and Shannon.

RESULTS

- v. Langley School.
Langley 84. College 85 for 5.
College won by 5 wickets.
- v. Hamond's School.
Hamond's 91. College 93 for 8.
College won by 2 wickets.
- v. City of Norwich School.
College 147. C.N.S. 46.
College won by 101 runs.
- v. Holt Hall.
Holt Hall 84. College 85 for 9.
College won by 1 wicket.
- v. Culford School
College 118. Culford 4 for 0.
Match abandoned.
- v. Framlingham College
Framlingham 105. College 106 for 8.
College won by 2 wickets.
- v. Norwich School.
Norwich 87. College 92 for 2.
College won by 8 wickets.
- v. King Edward VII Grammar School, King's Lynn.
King Edward's 69. College 72 for 6.
College won by 4 wickets.
- v. Woolverstone Hall.
Woolverstone 94 for 6 dec. College 95 for 7.
College won by 3 wickets.

Under Fourteen XI

The team as a whole had a most successful and encouraging season. Of the six matches played, three were won, and in two of the others the college appeared to be in very sound positions when rain caused them to be abandoned.

One must congratulate Townsend on his general captaincy both on and off the field. Through his personal example the team was moulded into a keen and efficient XI.

The majority of the side made one or more useful scores, and it was good to see many of them endeavouring to do so using a "straight bat."

The brunt of the bowling was shared by Greenfield, Clarke and Myhill. All of them had their successes, the bowling of Greenfield being particularly consistent throughout.

RESULTS

- v. Langley School (away).
Langley 94 all out. College 96 for 3 (Futter 43).
College won by 7 wickets.
- v. Thorpe Grammar School (away).
Thorpe 34 all out (Myhill 6 for 25). College 23 all out.
College lost by 11 runs.
- v. Culford School (home).
College 99 all out (Greenfield 36). Culford 14 for 3.
Match abandoned.
- v. K.E.G.S. Bury St. Edmunds (away).
College 76 all out. K.E.G.S. 44 all out (Greenfield 5 for 10, Clarke 5 for 21).
College won by 32 runs.
- v. Cambridgeshire H.S. (home).
College 150 all out (Townsend 51). Cambridgeshire H.S. 87 all out (Greenfield 5 for 35).
College won by 63 runs.
- v. Woolverstone Hall (away).
College 84 for 6.
Match abandoned.

The team was chosen in the main from: Townsend (Capt.), Ayton, Bartram, Clarke, Futter, Greenfield, Howard, Kiddell, Marter, Myhill, Rushbrook and Rutland.

RUGBY

1st XV

The College got off to a good start in season 1960-61, winning the first nine games. Among our early opponents was King's School, Ely, whom we played for the first time. The Royal Grammar School, Colchester, in

their first game against the College, beat us by an unconverted try. This proved to be one of our hardest games and we were perhaps a little unfortunate, since our forwards held territorial advantage for the greater part of the game.

The match against St. Mary's Hospital (Schools XV) was one of the season's highlights, for the opponents played very attractive football. Our victory by 11 pts. to 6 pts. was a little flattering, but it showed that spirit and determination could carry us through, even against more experienced sides.

The remaining three matches of the Winter Term were against Gresham's School, Woolverstone Hall and the Old Boys' XV. The game against Gresham's gave us our biggest victory, but it should be noted that not one of the many tries was converted.

The Woolverstone Hall game was a very thrilling, hard-fought, forward battle. Sargent, the scrum-half, won the game for the College in the dying minutes with a fine try in the corner. This victory by 6 pts. to 5 pts. was our first ever over Woolverstone Hall, who turned the tables, however, in the return match.

The Winter Term closed with the match against the Old Boys which was played under poor conditions. On this occasion the College suffered its biggest defeat, the score being 8 pts. to 3 pts.

During the Spring Term four matches were played against club sides; of these games two were drawn, one lost and one won.

The strength of the College side was in the pack, which did not always make for spectacular rugby, but the three-quarters improved considerably towards the end of the season. Morgan, in particular, turned out a much improved player. In the pack Postle and Gosling played well together, and Lowton, at blind-side wing forward, was always a worry to opposing scrum-halves. The rest of the regular pack are to be congratulated on their efforts throughout the season. Smith, a lion in defence and a great trier near the line, always set a good example to his team.

Smith gained a re-award of colours. Full colours were awarded to Morgan, Postle, Gosling, Williamson, Lowton and Gunton, while half-colours were awarded to Clarke, Palmer and Strickland.

3rd XV

RESULTS

v. Norwich Colts	Won	8—3
v. St. Joseph's College	Won	13—8
v. Hewitt's Old Boys	Lost	13—5
v. Stowmarket G.S. 1st XV	Lost	6—46
v. Norwich School	Won	19—0
v. Colchester R.G.S.	Won	10—3
v. Gresham's School (U. 16)	Lost	11—6
v. Woolverstone Hall	Won	6—0
v. Hewitt's Old Boys	Won	18—11
v. H.M.S. Ganges	Won	58—0
v. Woolverstone Hall	Won	35—0

The 3rd XV had another successful season of enjoyable football and served as a reservoir on which senior teams could and did frequently draw. There was not, however, quite as keen competition for inclusion in the team as in previous seasons and it is to be hoped that this will be rectified next term. Much of the XV's success was due to the enthusiasm of Mr. Stockwell, who gave up a great deal of his time and energy to coach the side.

The following played regularly for the XV:—Bartram (captain), Myhill, Tolliday, Cole R., Sumner, Bacon, Ackers, Hurren, Amis J., Canham, Sills, Candler, Clark P., Sparrow T., Lawrence, Green R., Sidell.

Colts XV, 1960-61

It was anticipated that the Colts XV would be a strong one as they had remained undefeated for two years as the Bantams and Under 14 team respectively. However, again under the captaincy of B. Corless, the team surpassed all expectations not only by preserving their unbeaten record in their nine matches, but also by scoring 288 points and having only 32 points scored against them. The best game of the season was against the formidable Colchester side. In this game, mainly through the excellent all-round play of centre-threequarter Bobbin, who converted all six tries, the school won by 30 points to nil.

All the back division played consistently well throughout the season, the outstanding player being Melton, a converted hooker whose strong running in the centre could always be relied upon to produce two or three tries. However, as has been proved so often, it is pointless having a good back division if the forwards do not ensure a regular supply of the ball. Fortunately there was no fear of this in a team which possessed a mobile pack of forwards with a quick striking hooker in Arnup and an excellent line out player in Cullingham.

The school was well represented in the County matches by C. Melton, P. Nichols, B. Corless, J. Howard, D. Hegarty.

School Team: D. Hegarty, M. Boast, C. Melton, E. Bobbin, A. Marter, M. Arnup, B. Corless (captain), J. Howard, R. Goodwin, R. Shannon, M. Cullingham, R. Futter, B. Porter, J. Kitch, I. Robinson, A. Dyson, P. Nichols.

RESULTS

Oct. 1st	Felixstowe G.S.	home	won	31—5
Oct. 8th	St. Joseph's College	away	won	29—9
Oct. 15th	City of Norwich School	home	won	44—6
Nov. 12th	Stowmarket G.S.	home	won	35—3

Nov. 22nd	Norwich School	away	won	42-0
Nov. 26th	Colchester R.G.S.	home	won	30-0
Nov. 30th	Gresham's School	away	won	31-0
Dec. 3rd	Woolverstone Hall	away	won	11-3
Feb. 11th	Woolverstone Hall	home	won	35-6

Junior Colts XV

The team had a most successful season and equalled the record of last year's XV. The success was primarily attributable to the enthusiasm and determination of all the players and to the excellent team spirit, which prevailed throughout the season. There was a marked improvement in the standard of play as the season progressed, and it was particularly pleasing to note the improvement in the handling of the ball and in tackling.

Townsend proved a capable captain, and by his personal example on and off the field he contributed in no small measure to the team's success.

The team was selected from the following: Hammond, Greef, Bush, Rushbrook, Townsend (captain), Abbatt, Bartrum, Ryder, Smith G., Seaman, Lincoln, Corless T., Hatton C., Atkins, Busby, Gowing, Petr.

RESULTS

Felixstowe G.S.	(a)	Won	6-0
St. Joseph's College	(h)	Won	18-15
Culford School	(a)	Won	14-11
Woolverstone Hall	(a)	Won	11-10
City of Norwich School	(a)	Won	6-5
Framlingham College	(h)	Won	9-0
Woolverstone Hall	(a)	Won	14-0

Bantams XV, 1960

Despite the short fixture list, the Bantams showed in the matches played that the standard of rugby at this level is still very high. The forwards particularly played with great vigour, ably led by Trett, who was our line-out specialist. The front row were invariably in the thick of it, and Brooks at wing-forward was a stalwart tackler. Although generally successful in the set scrummages, the play in the loose often lacked ideas.

Corbridge, who captained the side admirably, was the pick of the backs, running strongly, tackling well and kicking intelligently. Francis, at stand-off, despite a tendency to kick when in a good position to start a movement, showed real promise for the future. All the three-quarters, however, were sound, though inclined to retain possession of the ball a little too long. On the whole it was a good season and the keenness and team spirit displayed throughout augurs well for the future.

RESULTS

Felixstowe G.S.	Drew	3-3
St. Joseph's College	Won	9-3
City of Norwich School	Won	9-0

COLLEGE MUSIC

THE COLLEGE ORCHESTRA

Although the College Orchestra has remained rather in the background, much good work has gone on behind the scenes. Since last September we have added three violas, one cello, two clarinets, one trombone, one bassoon, and five violins to the orchestra. We are now nearly complete in woodwind, brass and strings. Our thanks are due to Mr. Baker for his efforts spent in organising and conducting the orchestra, and to those members of staff who have assisted in the rehearsals, Miss Hawkyard, Mr. Banham, Mr. Thornley and Mr. Wrench.

In addition to our usual visiting teachers, we now have two new teachers to help us, Mrs. Gossling for the violins, and Mr. Gibson for the brass. Our repertoire has increased in difficulty, but more effort is needed (especially by the strings) to improve our playing if we are to attempt the standard symphonic classics. We hope to make a further public appearance next year, by which time our numbers will have risen to forty.

MICHAEL RICE, RICHARD VINCENT

THE GIRLS' CHOIR

During this year, the year after its inception, the choir's opportunities to perform in public were limited; therefore the choir endeavoured to profit by a year of steady unfluried practice. Songs by Haydn, Mendelssohn, Schubert and other well-known composers have been rehearsed. At the end of the Autumn Term, at an informal meeting at which most of our members were present, a selection of Christmas Carols was sung.

Towards the end of the Spring Term it was decided to enter a class in the Norfolk County Festival of Music at Norwich. The choir was re-organised and reduced in numbers, and the practising continued. The pieces set for the Norfolk County Festival were to be selected from "A Goodly Heritage" by Dr. Gordon Jacob. We chose a three-part song, "Pleasure it is," and a two-part song "Evening," and at the beginning of the Summer Term we met frequently.

At the festival the adjudicator commented on the choir as a whole and praised the soft singing and sense of atmosphere in difficult songs. A first-class certificate in both our songs was a happy reward for our efforts.

As is usual at this time of the year, we take reluctant leave of many of our senior members and wish them success and happiness in the future. At the same time we shall welcome a few new members to replace them and continue the work of the choir, which is now firmly established.

JANET HIGH-CASTON

SENIOR CHOIR

This year we have not had so many engagements as usual, although this does not mean we have not worked hard.

Again this year, owing to the fact that St. Botolph's Church remains unrepaired since the fire, we held our carol service in St. Mary's Church, Attleborough. Keith Swetman sang a solo entitled, "Three Kings from Persian Lands Afar" at both this service and the annual carol service in the College.

This year, as previously, we attended the Music Festival at Norwich. We sang four items: "When I Survey the Wonderous Cross", "Say Love if Ever Thou Didst Find", for which we were awarded second-class certificates; and for "Fair Phyllis" and "At the Fair" we were awarded first-class certificates.

Before July we shall have again taken part in the Confirmation Service at Wymondham Abbey and have performed at Morley Village Fete.

Practices this year have been held on a Thursday, when we have sung a variety of songs, including, "Rejoice in the Lord Alway", "Comfort O Lord the Soul of Thy Servant", "Waltzing Matilda" and "Linden Lea".

We should like to take this opportunity to thank Mr. Wrench, our choir master, for his valuable help and encouragement.

D. J. BLANCH

THE JUNIOR CHOIR

This year has been an interesting one for the Junior Choir. The number of members has increased to nearly fifty, and the standard of singing in Junior Chapel has risen accordingly. The choir gave a good account of itself at the Christmas Carol Service at Mulbarton; this was a unique occasion, as there were pageants performed by other schools between the carols, and our thanks are due to Mr. Baker who accompanied the service.

During the Easter Term, we lost some of our older boy members but in spite of this setback, the choir rendered three items at the County Festival, and each item was awarded a well-earned second-class certificate. The general standard of the festival was higher than in previous years, and we performed two-part works for the first time at this festival. We look forward to further activities on the part of the Choir next year, and extend a welcome to those joining us in September.

Music Examinations

Michael Rice gained a distinction in Grade V of the Associated Board Examinations for flute-playing. The following pupils also passed the Board's Examinations: Sally Stone, (Grade I, piano); Gillian Langley (Grade II, piano); Gillian Watson (Grade V, theory).

DENNIS HERRELL,
HEAD BOY,
1960-61

HEATHER ROY,
HEAD GIRL,
1960-61.

“MURDER IN THE CATHEDRAL”

At the beginning of the Autumn Term members of the Fifth and Sixth forms began rehearsing for the Christmas production of T. S. Eliot's "Murder in the Cathedral". The College set itself a high goal in undertaking to produce a play of this type; nevertheless, by hard work on the part of the performers and of the producer, Mr. Garrard, the difficulties presented were successfully overcome.

Keith Beardsley took the leading part of Thomas Beckett, the Archbishop of Canterbury, and the rest of the cast portrayed Knights, Templars, Priests, and a chorus of wailing women.

Six performances were given, the first to the Junior School, the second to the senior School, and four to the general public. The Press gave favourable and encouraging reports.

We owe much of the success of the production to Mr. Staveley, Mr. Siviour, and Mr. Chamberlain, who organised the seating arrangements; Mr. Freeman, who supervised the scenery; Miss Colls, who arranged the make-up and costumes; and all those who assisted in so many different ways.

Once again we should like to express our deep gratitude to Mr. Garrard, who took such time and effort over the production, and without whom the intense enjoyment of both performers and audience would never have resulted.

TRUDY BEVIER

COLLEGE CLUBS

THE ART CLUB, 1960-61

There has been more emphasis this year on individual practical work instead of films, and the members have experimented with different media, producing unusual designs and compositions. The aim was to allow the members to enjoy more freedom in their technique than is possible in class-work.

On one occasion some interesting results were obtained by following an idea of Picasso. He simplified the painting of Las Meninas by Velasquez and converted it into abstract forms, at the same time not losing the composition in shape or colour. Each member chose a painting of an Old Master, and tried his skill at the same idea. Some interesting results were obtained.

On one occasion the members' imagination was stirred as deeply as possible by playing a harp recording of Handel's music, after which they were asked to interpret this in brush and paint. This proved, undoubtedly, that no two people think alike! The results varied from pale opaque, floating circles and triangles, to wooded arbours and Grecian columns.

Two more "material" evenings were spent in rendering, first, a straightforward composition in coloured ink and brush—a market scene. Some results would have made lively book illustrations. Secondly, Annette Welfare kindly posed in the costume that she wore in the school play "Murder in the Cathedral" and the members were lost in their efforts to paint folds of drapery.

Imitation stained glass windows were made one week, using coloured cellophane instead of glass, and a frame-work of black cardboard instead of lead. These were used for Christmas decorations and with a light behind them they appeared quite Mediæval.

Considerable aspects of painting have been covered during the year, and it is hoped to discover more fresh fields next term.

THE BIRD-WATCHERS

Although the membership is now mainly recruited from the County Grammar School forms, there are still a few faithful representatives of the College at the Thursday lunch-time meetings. While new members are always welcome, it is an unfortunate fact that the number of birds seen decreases as the number of watchers increases!

However, we try to take an interest in other branches of Natural History besides Ornithology—in the autumn, Fungi (and chestnuts) attract our attention. In the winter, with no leaves on the trees to obstruct the view, we watch the wood and fields for migrant birds from Russia and Scandinavia. In the spring and summer we look both for the nests, which always have an irresistible attraction, and for interesting plants and insects. A ferocious looking monster armed with a long, sharp proboscis, found climbing up the lapel of a boy's jacket, turned out to be a harmless bee-fly. A pen-knife revealed that a soft, white "egg" was the embryonic form of the Stinkhorn, a fungus which many have smelt, but surprisingly few have seen!

We at the College are most fortunate in having the woods at our very doorstep. It is an amenity for all who value the English countryside, whether they be Bird-watchers, "Bug-hunters" or just plain human beings.

CHESS CLUB

The Chess Club has had a quite successful year. Meetings were held on most Mondays in the Autumn and Spring Terms and the attendances have been encouraging.

The Junior team (under 15) entered the newly formed junior section of the Norwich and District Schools' Chess League. They put up an excellent performance to win the Western Area Section of the League and were

victorious in all their intermediate matches. They lost the Final to the City of Norwich School.

I should like to thank Mr. Parker and Mr. Williams for the help and encouragement they have given. Also many thanks are due to Greenfield for undertaking considerable secretarial work on behalf of the Junior Team.

The following have been regular members of the School teams—

Seniors: Canham, Ellis, Harper, Marriott and Rowell.

Juniors: Graveling, Greenfield, Harrison, Haw, Pooley, Robinson I., and Turvey.

Baker D., Williamson, Kennedy and Tolliday have also played the occasional game for the school.

ANTHONY ELLIS, Secretary

RESULTS

FENCING CLUB

All of us in the Fencing Club are indebted to Mr. Banham, our founder and mentor for seven years. Owing to increased commitments he has been unable to be with us this year as often as he or we would like. We thank him very much, especially on behalf of past members of the Club, who having left the College, have continued to gain pleasure from Fencing.

The Club began this year with a record number of members, and a record amount of equipment. Especially welcome are the new jackets, which have rendered our sport more elegant, and less obviously dangerous.

We have had several engagements with other Schools, and have taken part in the Norfolk Men's Team Foil Championships, gaining third place. Our team has consisted of Holmes, Ashton, and Marriott, with one of the following as fourth, M. Amis, Cloake, Sparrow, and Thomas.

We have again been asked to provide a Fencing Display for the Education Committee's tent at the Royal Norfolk Show.

There will be places in the Club for five Lower Sixth Formers next September. Interested persons are asked to introduce themselves to Club Officials as soon as possible.

N.D.A., G.W.H., D.C.F.

THE PHOTOGRAPHIC SOCIETY

During the last year there has been a marked increase in enthusiasm among the members in the Society. This is due to the fact that we have acquired a new Gnome enlarger. Before this our only method of enlarging was with the geography projector.

The Society at first tended to deal with members' work only, but as the membership grew, it was found that other work could be dealt with as well. Photographs of the separate sections of the houses were taken at the end of the Summer Term. The proceeds are being used to purchase chemicals, paper, developing dishes, and a print drier and glazer. As next year's membership is expected to be larger still, a new dark room is sought.

RADIO SOCIETY

When Mr. James left at the end of last year the Radio Society continued to thrive. At first its membership was only six, but this was doubled halfway through the year.

In its two small side-rooms in 32 the society has been busy; the Physics Laboratory has always been open to the members so that they can test their various inventions.

Mr. James has been in postal contact with the Society during the past year, and we are all thankful for the help he has shown in obtaining components, designing circuits, and solving problems.

D. HERRELL

THE SEMI-CIRCLE DEBATING SOCIETY

This venerable institution, now in its ninth year, according to the minute-book, has had quite a successful season. Formal debates, as usual, were the most frequent form of meeting, the subjects disputed included the "Angry Young Men", Nuclear Weapons, The Arts, Britain as the Fifty-First State of America, and The Extermination of the Unfit. A "hat" discussion

was also held at the end of the Autumn Term, and a new venture, the trial of an historical personage, in this case Henry VIII, was a most erudite and illuminating affair.

There have been one or two quite outstanding speeches this year, an encouraging sign, and many shrewd observations from the floor. Most people, too, if not all, were able to achieve verbal wit, which needs to be distinguished from sheer nonsense or abuse. And even those who merely listened should have been stimulated by the formal air of the proceedings.

COLLEGE EXCURSIONS

THE SENIOR GEOGRAPHICAL SOCIETY

After a year's lapse the Senior Geographical Society again resumed meetings on Thursday evenings. At the beginning of the year the society had no funds and throughout the year many problems and difficulties arose, but were generally overcome.

Films were shown every fortnight, but talks by staff and pupils occupying the intervening weeks. The films were varied and depicted distant lands such as Antarctica, North and South America, and Africa as well as some of our own country. The talks were usually very interesting and well illustrated. Two which will be remembered were given by the Society's Honorary President, Dr. J. Mosby, about "Field Work", and by R. J. Smith on his "World Travels".

The Geographical Society Dance at the close of the Easter Term was a complete success and was enjoyed by everyone.

We thank Mr. A. C. Chamberlain and the film projectionists who gave up many valuable hours of their time to make a success of our meetings.

P. RUMP, J. MAYES

CAMPING

Our second season of lightweight camping opened during the Easter holidays when the Forestry Commission's camping site at Santon Downham was used as a canoeing base for five days. Some time was spent also on map and compass marching in the forest, and a visit was made to Grimes' Graves.

During term time a canoeing base was established through Mr. Swan's generosity on his land at Loddon. During the summer the River Chet and Hardley Marshes became familiar haunts of the fourth form canoeists. In addition, a return visit was made to the Santon Site for the compass walk exercise, and this weekend provided at least one member of the present fifth form with material for one essay and a subsequent lecturette.

After Advanced Level examinations were over certain sixth formers set out to taste the delights of camping and canoeing at the Loddon base, although two penetrated further afield and did a cycle camp to the Royal Show at Cambridge.

The scope of our lightweight camping expeditions will take a further aspect this summer as we bring into use the Bittern sailing dinghy, completed in the workshops during the winter, under the meticulous supervision of Mr. Mullenger.

GERMAN EXCHANGE, 1960

The scope of the exchange was extended this year to enable a party from the College to visit Göttingen in addition to entertaining a party from Göttingen at Wymondham College.

We met the German girls and their staff at Harwich on 16th August and spent the following fortnight with them, using Peel Hall as our base. Only very slight modifications of the programme were necessitated by the wet summer and we were able to make excursions over a wide area. The Lord Mayor of Norwich entertained the whole party for morning coffee and allowed the party to ascend the tower of the City Hall to appreciate the panoramic view of Norwich and its surroundings. For our visitors and ourselves alike the highlights of the programme were the two-day visit to London and Windsor, the day spent in Cambridge, the tour of the Norfolk Broads and the visit to the Son et Lumière at Norwich Cathedral. The weekends spent in our homes were also very much appreciated by our visitors.

Our visitors left the College with Mr. Dudley, Miss Dolan and another party of twenty girls from the College. An innovation this year was a visit to Amsterdam before proceeding to Göttingen. The tours by launch of the canals, the viewing of the paintings of the Dutch School in the Museum and the Dutch lunch were all voted worthy of repetition by future parties. We arrived at Göttingen in the early hours of the morning and were soon whisked to the Waldheim in a coach to find a warm meal awaiting us. The programme arranged for us was full and interesting and we retain a lasting impression of the country and its inhabitants. Our memories range from the busy City of Hanover to the quietness of sailing on Steinhude Meer, the solitude of the Border Zone and the beauty of Goslar and the Harz Mountains. As a contrast the evening spent at the Coco Cola factory introduced us to a "sock-hop" and an unlimited supply of free Coco Cola. The German girls welcomed us in their homes for the weekends and we look forward to an equally interesting time with the same girls when they visit the College in July 1961.

FIELD TRIP TO THE WYE VALLEY

This year the Easter field trip was divided into two groups, one studying Geography and the other Geology. The Geographers stayed at a Holiday Fellowship Guest House at Llandogo on the River Wye, and this is an account of the work carried out from there. Llandogo is an attractive village. Our hotel was situated on a hillside overlooking the Wye.

The weather on the whole treated us fairly kindly, although sunny mornings often gave way to heavy rain in the afternoons. In spite of this we were able to study the physical features, town and industries of the Forest of Dean by means of a series of foot traverses across the area. This is one of Britain's coalfields to which industry has not done its worst, and alongside collieries and modern factories people still exercise rights granted them by the ancient Forest Law.

A full day's excursion took us to South Wales, where a visit was made to Abertillery New Mine. This was a very exciting experience, as we actually went into the mine. A seam only two feet thick was being worked and we had to crawl a hundred yards to reach the coal face, where we saw the miners at work. We little envied them their job. Another day excursion, this time with the geologists, was to visit Ebbw Vale. The journey included a stop at Abergavenny to climb the Sugar Loaf, and from the top we saw a fine panorama of the Welsh mountains. The 2000 foot climb is a steep one and was evidently too much for certain ageing members of the party and, like Napoleon's armies in Russia, they were forced to retreat before the natural odds.

The success of this trip was due to Mr. Siviour, Mr. Stockwell and, not least to Mr. Wymer, who drove the coach. To them we give our thanks. We all felt that in spite of such hazards as packed lunches and the weather, the expedition's aims were well covered.

D. BLANCH

GEOLOGICAL FIELD TRIP

The features of the geological field trip to the Malvern Hills that will long remain in the memories of those fortunate enough to attend it were the beautiful weather, the fine accommodation, and the work. The indefatigable enthusiasm and energy of Mr. Staveley and Mr. Chamberlain (and the suitability of the area) were undoubtedly our prime inspirations to work. As if to encourage us to use our own initiative, our instructors would adopt totally opposing attitudes towards the fossils we found; the one was consistently able to identify a fossil at a glance, while the other was rather reluctant to acknowledge the existence of any but the most obvious examples.

However, this in no way lessened, but rather increased, the benefit we derived from the exercise. Despite a few "teething troubles" before the three days, we all agreed that the trip was extremely successful in every way.

A. MARRIOTT

TYROLEAN HOLIDAY

At Christmas a small party from the College went on a ski-ing holiday to Austria. Owing to the strike in Belgium the cross-channel journey was made via Folkestone and Calais, on the "Cote d'Azur", a French cross-channel steamer. From Calais we made an overnight journey through France to arrive the next morning in Basle whence we travelled through Switzerland and Lichtenstein to Innsbruck in Austria. A coach took us on the last lap of our journey to the small picturesque village of Mutters, where we were to stay.

Everyone soon settled down, and after a few days became quite proficient at ski-ing. After the third day we were allowed to take the ski-lift up the mountain, and ski down, under the guidance of our Austrian ski-ing instructor. While we were in Mutters, we went to see a display of Austrian folk dancing.

We returned to Calais by the same route and had a very rough crossing of the Channel on board the "S.S. Canterbury".

Everybody thought that the trip had been a great success and we are grateful to Mr. Davies for his efforts on our behalf.

D.C. R.C.

WYMONDHAM COLLEGE IN "THE ETERNAL CITY"

On August 29th, 1960, a party of 24, including six girls and seven staff, left the College by coach for London on the first leg of our 1,200 mile journey to Rome. By late afternoon the Channel had been crossed and everyone was settled in the through-train which was to take us to Rome. This journey took 30 hours. The route followed was via Calais, Basle, Milan and Florence; Northern France and Switzerland were crossed during the night. After a sweltering second day in the train we arrived in "Roma" and were taken to our headquarters by coach.

The Suore Missionarie Catechiste is a modern religious institution on the outskirts of Rome with views of the distant Alban Hills. Despite the lateness of our arrival we soon established contact with Romans in a nearby cafe, and entered into the "Dolce Vita" with its klaxons and its scooters; its excitability and the espresso coffee. Indeed we soon appreciated that the wolf of Romulus and Remus is not featured on the City's

Coat of Arms without good cause. However, the Italians we encountered proved to be most friendly and language difficulties were often overcome after a flurry of signs and a little halting French.

The days that followed were Voyages of Discovery. The mornings were spent ranging about the city in search of the well-known sights such as the Colosseum, or the Forum; St. Peter's or the enchanting Trevi Fountains, wherein our coins were duly flung. In the afternoons whilst many Romans were enjoying their siesta we joined the cosmopolitan crowds which thronged the arenas. We shared the competitors' triumphs and their defeats, and though nationalism reared its head on occasion, it was just not possible to leave the Olympic Stadium without feeling that we too had taken part in an amicable gathering of the youth of many nations.

Two days were spent on excursions outside the city. The first, a very hectic day, saw us pondering, amidst the parched olive tree clad slopes and the heat haze, on the fruits of Rome's greatness at Tiroli in the Alban Hills. We toured Hadrian's Villa and the Villa d'Este, the terraced gardens and the fountains of the latter are renowned for their splendour and so our cameras were very much in evidence. Afterwards we visited the Castellani Romani—the hill towns outside Rome which are the citizens' summer retreats away from the muggy Tiber Plain. Towns like Frascati, perched high on the hillsides above lakes of volcanic origin, are not likely to be forgotten in a hurry. That evening under a spangled Roman sky we watched the final session of the swimming events.

The second day provided a more relaxing excursion, for we spent the day bathing on the coast between Ostia and Anzio. Though disappointment was expressed by some at the lack of blue in the Mediterranean, it was soon dispelled in the warmth of the sea and the scorching effect of sun and sand. It was, indeed, a tired party that returned to the eager ministrations of the nuns in the evening.

All too soon our "arrivederci's" had to be said. But only after our various groups had visited the Athletics, Swimming, Fencing, Boxing, Basketball and Equestrian events, and our two girl artists had made their sketches. So, loaded with our presents and luggage, we thanked the nuns for their hospitality and started on the return journey, slipping surreptitiously once again through Switzerland.

Back in England we were welcomed by a watery sun, but we fortunates were tanned and bronzed and it was possible now for us to sit back smugly and point out as we watched the televising of the final ceremonies that we had been there. Come to think of it, those cries we could hear over the sound link were not unlike the ones we had become familiar within the stadia—the cries of Gelatti! Coca! Panini!

ACADEMIC HONOURS 1960**STATE SCHOLARSHIP**

GENERAL CERTIFICATE OF EDUCATION RESULTS, 1960

ADDITIONAL SUBJECTS

**Denotes Pass at Christmas*

FORM IVA

- ALLISON, Anthony G.
Geography.
- AMIS, Michael D. G.
English Language*, History, Geography,
Metalwork.
- BAKER, Alan D.
Metalwork, English Language*, History*,
German*.
- BEVERCOMBE, John E.
English Language, Geography, Mathe-
matics, Metalwork.
- CLOAKE Terence R.
English Language, Geography, German,
Mathematics, Metalwork.
- COLE, David J.
English Language, History, Geography,
German.
- COLE, Roger G.
Geography, English Language*, History*.
- CURSON, Barry J.
English Language, History, Geography,
German, Metalwork.
- FOX, David W.
English Language, History, Geography,
Mathematics, Metalwork.
- GENT, David E.
History, Geography.
- HOWE, Timothy M.
English Language, History, Geography,
German, Metalwork.
- HUBBARD, Michael C.
History, Geography, German, Mathe-
matics, English Language*.
- LOGAN, Sean T.
History, Geography, Metalwork, English
Language*.
- MAKINS, Malcolm K. G.
English Language, Geography, Metal-
work.
- MOORE, Roger W.
History, Geography, Mathematics,
English Language*.
- PALMER, Roland A.
Geography, German, Metalwork, English
Language*, Mathematics*.
- PATTEN, Peter C.
Metalwork.
- SMITH, Christopher J.
History, Geography, Mathematics, Metal-
work, English Language*.
- SPARROW, Terence W.
History, Geography, Metalwork.
- STARMAN, Brian J.
English Language, Geography, Mathe-
matics, Metalwork.
- THOMAS, Colin H.
English Language, History, Geography,
Mathematics.
- TIMMS, Brian K.
English Language, History, Geography,
Metalwork.

- BUGGS, Judy K.
History, Mathematics, Needlework/
Dressmaking, English Language*.
- CORSER, Gillian M.
English Language, Needlework/Dress-
making.
- DYSON, Anne F. T.
Needlework/Dressmaking.
- INGATE, Margaret A.
Geography, German.
- REYNOLDS, Joy M.
Mathematics, Needlework/Dressmaking.
- FORM IVal
- LAWRENCE, Thomas J. W.
Mathematics, General Science, Art.
- NELSON, Leigh
English Language, Mathematics
- STEWART, Glynn
Geography, Mathematics, General Science,
Woodwork.
- ANTHONY, Marilyn D.
English Language, Geography, General
Science.
- BELL, Carol A.
English Language, Mathematics, General
Science, Needlework/Dressmaking,
History*.
- BEVIER, Lottie G.
English Language, History, Geography,
Mathematics, General Science.
- CORDLE, Susan M.
English Language, History, Geography,
Mathematics, General Science.
- FULCHER, Jean S. A.
English Language, Geography, Mathe-
matics, General Science, Needlework/
Dressmaking.
- HANCY, Mary A.
English Language, General Science,
Needlework/Dressmaking.
- LOVELL, Frances K.
English Language, History, Geography,
Mathematics, General Science.
- ROPER, Patricia M.
English Language, Mathematics, General
Science.
- STOLLERY, Anne
English Language, History, Geography,
Mathematics, General Science.
- WATSON, Gillian C.
English Language, Geography, Mathe-
matics, General Science.
